HMMH Harrison
Memorial Hospital
a regional medical center

**SMALL TOWN, BIG
MEDICINE**

SINCE 1906

ABOUT HMH

Since 1906, Harrison Memorial Hospital has been caring for the counties we serve. Once a community hospital, we have expanded our facility, acquired cutting-edge technology and partnered with physician specialists leading in their field to deliver the highest quality healthcare closer to home.

Our regional medical center boasts a new emergency department that has doubled in size, state-of-the-art labor, delivery and recovery suites, a new newborn nursery, new chemotherapy and infusion therapy suites, new space dedicated to specialty clinics and a team of health professionals with experience unmatched in the area.

We currently have 19 physicians on our active medical staff and more than 100 consulting specialists. Harrison Memorial Hospital is a locally owned and controlled, not-for-profit facility.

We're licensed by the state of Kentucky to operate 61 beds, and we're certified by Medicare/Medicaid. We're a member in good standing with the following agencies, and we meet or exceed their standards for quality:

- The Joint Commission
- American Hospital Association
- Kentucky Hospital Association
- Kentucky Rural Health Association

All Children Pediatrics

Where we partner with you to provide quality pediatric care!

400 Blankenbaker Parkway, Suite 200 Louisville, Kentucky 40243

www.allchildrenpeds.com

From Birth to Present Day

- April 1998

All Children Pediatrics was created in the east end of Louisville, Kentucky by the vision of 4 practicing Pediatricians who wanted to practice medicine their way. Three of the partners came from a corporate HMO and one from private practice.

- September 2022

Today we continue to operate independently with 6 providers. Our Pediatricians and APRN's provide excellent general pediatric medical care and Lactation services to patients from birth to college age. We are serving patients from Louisville and the surrounding counties as well as southern Indiana. And we are still practicing our way!
